

Designation of a signatory for the high-risk activity form  
For the period of the 2017-2018 school year

The high-risk exit form requires the signature of two parents to allow a student to participate in this type of activity. We offer you the possibility to appoint, as a signatory, one of the parents or legal guardians instead of two.

Parents or legal guardians may consent to only one signature being required for the high-risk activity form that normally requires the signature of two parents or legal guardians.

I, (print name) \_\_\_\_\_, consent that only one signature will be required to validate the CSF's consent and waiver form for high-risk school activities in which my child may participate.

Signature: \_\_\_\_\_  
Date: \_\_\_\_\_
