Joseph Shea, parent, École Franco-Nord and Programme francophone at Duchess Park Secondary

Subject: Response to your email of November 26th, 2020

Mister Shea,

First, allow us to thank you for taking the time to participate in the virtual consultation held for the community of Prince George two weeks ago, and for following up with us via email. You raised a number of valid concerns that we will be taking into consideration as we determine the next steps in our plan to expand the Francophone space over the next months and years.

As you are certainly aware, each of the eight communities where we currently have a heterogenous school has its own set of challenges, particularities and opportunities that we must consider and address. Your feedback will help us determine the best course to take in order to reach the most desired outcome for the students and families of Prince George.

Please rest assured that the quality of the educational experience provided to your children, our students, is and will remain of the utmost importance for us and that our decision-making will be based on the very important feedback provided by each community.

Please accept our best regards.

Patrick Gatién
Chair, CSF Board of Trustees

Cc: Marie-Christine Claveau, Trustee, Northern Region
